DETAILED ACTION

1. This action is in response to the communication filed 2/5/2007.
2. Currently claims 1-3, 5-12 and 15-16 are pending.
3. The Terminal Disclaimer filed 2/5/2007 disclaiming the terminal portion of any patent granted on the application, which would extend beyond the expiration date of US Patent No. 6,912,668 has been reviewed and is accepted. The Terminal Disclaimer has been recorded.

Allowable Subject Matter

4. Claims 1-3, 5-12 and 15-16 are allowed.
7. The following is an examiner's statement of reasons for allowance: The admitted prior art DeKoning et al. (U.S. Patent No. 6,073,218) discloses performing concurrent I/O operations on a common shared subset disk drives by a plurality of RAID controllers. Each of a plurality of Raid controllers may actively process different I/O requests on a common shared subset of disk drives. The RAID controllers exchange messages over communication medium to coordinate concurrent access to the shared subset of disk drives through the primary controller.

However, the admitted prior art does not disclose: " receiving a request from a host, by a first one of the AMFs, to perform a first operation on data stored on a first one of the resources; broadcasting a message from the first AMF to the other AMFs sharing access to the first resources so as to acquire the first resource; performing the first operation on the data by the first AMF; and sending replication and state data from the

first AMF to the other AMFs concurrently while performing any steps of the operation, one of the other AMFs is able to complete the operation using said sent replication and state data".

8. Any Comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comment on Statement of Reasons for Allowance."
